

Contact form

Please complete this form and return it scanned by e-mail at the following address:
contact@grupperutschi.com

You can also complete it directly on our website www.grupperutschi.com/en/ in the Contact section

1. Personal information

Company
Name
Department
Phone
E-mail
Additional information

2. What kind of application ?

Kind of application	Nuclear - Industry - Chemistry - Other
Other, please precise	_____
Construction code (if nuclear)	
Surveillance / Quality monitoring (if nuclear)	

3. Which type of pump do you prefer ?

Type of pump	Mechanical sealed pump
	Magnetic drive pump
	Canned motor pump
	Other : _____

4. Transported fluid description

Name	
Chemical formula	
Concentration	
Density	
Operating temperature	Min : _____ °C Max : _____ °C
Nominal temperature	°C
Design temperature	°C
Design pressure	bars
Does the fluid contain solids ?	Yes - No
If so, please provide as precise information as possible (solid content, grain size, hardness, jagged or smooth edges, abrasiveness)	
Does the fluid tend to crystallize ?	Oui - Non
If so, at which temperature ?	°C
Based on your experience, which materials are resistant to the transported fluid and which should be used for the connecting pipes?	

5. Operating data

Nominal flow rate	
Total head	m of water column
Connection type	By flange - threaded
(if flange) Flange norm and class	
Suction head	m

Immersion depth (only for vertical pumps)	m
NPSH	

6. Operating conditions

Daily operating time	h/day
Number of starts per hour	

7. Electric motor

Voltage	V
Frequency	Hz
Phase(s)	1 phase - 3 phases
Protection class (standard IP55)	
Insulation class (F)	

8. ATEX

Atex Zone	Yes - No
If so, Zone	
If so, temperature class	

9. Follow-up

What follow-up would you prefer after this contact form ?	
<input type="checkbox"/>	Phone call with a Rüttschi expert
<input type="checkbox"/>	Budget quotation
<input type="checkbox"/>	Firm quotation
<input type="checkbox"/>	Receive documentation and brochures
<input type="checkbox"/>	Product presentation
